### WORSE THAN A JOY RIDE.

"I lunched with W. B. Trites on Grand Prix Sunday, at Armonville," said a Philadelphian, quoted in the Washington Star. "Mr. Trites has made a hit abroad with his novel, 'John Cave.' Though the book only appeared in May, the first edition is already selling at a premium to London collectors."

"In the white and elegant restaurant in the head of the Bois de Boulogne, Mr. Trites was naturally jubilant. Our table was under a tree. A soft air rustled the leaves. The sky looked very blue and the pale and elegant toilets about us were dappled with dancing patterns of shade and sunshine."

"Over his coffee and cigarette Mr. Trites talked. He talked, since it was Grand Prix Sunday, about horses. He told me a number of horse stories."

"One of these stories concerned a young Philadelphian who drove tandem from the Country Club home to Chestnut Hill on a very dark night after a very elaborate dinner. It's a good thing there are not many Philadelphians like that young man."

The narrator shook his head, compressed his lips, and smiled a shocked smile.

"In a very high cart," he resumed, "after a very elaborate dinner, this young man drove with a friend, on a very dark night, to Chestnut Hill. Dear me!"

"The pace was terrific. The horses were invisible in the black gloom, but their hoofbeats made a sound like thunder. The cart bounced, jolted, ran on one wheel; and then the friend held on very tight, reflecting with horror on the great height of the fashionable vehicle."

"At last the brilliantly lighted facade of a mansion appeared, and like the wind the cart rushed through a lefty gateway. But as it made the turn it leaned—it leaned—"

"Easy, Jim! Easy round the corner, old chap!" gasped the guest.

"What's that?" the host asked, sleepily. "Why, haven't you—hic—got hold of the reins—hic—either?"

## "HELP SAVE THE BABIES"

THE LIFE SAVING SERVICE IS ORGANIZED

How It Is Proposed to Reduce Death Rate Among Babies This Summer.

### LITTLE FOLKS START SUBSCRIPTION LIST

The matter of the money for the life saving service for babies is in good hands. Some of the most prominent citizens of El Paso have taken it up and have started the fund. Some have quite recently been through teething and some are veterans at it, having served in two campaigns. All know whereof they speak and when they yell "Down with the colic!" they are in earnest.

They feel that the community owes a pension to all babies who descend from the celestial blue to take up the pain and trouble and strife in order that they may be. But certainly when an impractical, irresponsible stork leaves innocent, unoffending sparks of humans on the doorsteps of the very poor, the sick, the indifferent and the ignorant, somebody ought to step in and help. Why not the babies whom the stork has left on warmer, cleaner, more comfortable doorsteps?

How the Fund Grows. Both the city and county will undoubtedly help out. Mayor Sweeney has promised a generous check from the city if the county will meet it with one of the same size. In the meantime, feeling sure that so simple and profitable an effort must succeed, the Woman's Charity has announced a subscription list and among the newest inhabitants who have already subscribed are the following:

Johnny Mac,  
Francis Joseph Mullin,  
Margaret Stevens,  
Billie Fewel Cole,  
John A. Rice, Jr.,  
Helen Stevenson,  
Walter Stevenson,  
Horace Broadus, Jr.,  
Dorothy Lackland,  
Katherine White,  
Mary J. Rawlings,  
Eleanor Stevens,  
J. B. Watson, Jr.,  
Guy Hammett Davis,  
Richard Freudenenthal,  
Katherine Pfaff,  
Elizabeth Pfaff,  
William Tooley,  
Max Fisher Krakauer,  
Ted Cooley,  
Helen McCrummen,  
Howard Denny,  
John Beall Neff,  
Jas. A. Dick, Jr.,  
Julia Hawkins,  
Baby Hawkins,  
Henry Newman, Jr.,  
F. J. Peterson, of the Consumers' Ice company, has promised to supply all the ice and distilled water the babies need, free of charge.

The Babies' Life Saving Station. The Woman's Charity association is trying to establish a life saving station for El Paso babies for at least the four hot months this summer—from the middle of May until the middle of September; October would be better. If the work proves itself it will be made permanent.

### Spring-Cleaning

The Human System Needs It.

Mrs. M. Morgan, 411 4th Ave., E. Brainerd, Minn., writes: "I take from one to two bottles of Hood's Sarsaparilla in the spring to purify the blood, just as regularly as I do my house-cleaning, and go around light-footed and light-hearted. I believe it is the best blood purifier known."

Hood's Sarsaparilla so combines the curative principles of herbs and herbs as to raise them to their highest efficiency; hence its unequalled cures. Get it today in usual liquid form or tablets called Sarsatabs.

manent. The babies of El Paso's poor need help the year round, but just now the charity is working for the service for four months.

The equipment of the station will be free clinics for babies, a salaried, trained nurse, who shall also be trained in social service, volunteer service from the trained nurses of the city as they can give time and find the experience profitable; supplies of good honest milk, ice, wickerwork to keep the milk, honest, and the essential paraphernalia of baby's welfare.

Clean and Right Food. The great work, the first object, shall be the proper feeding of babies. But this includes establishing cleanliness, fighting the terrible diseases that summer always brings to the little ones, and dispensing milk to bottle babies and preparing gruels for the sick ones. It means trying to keep the babies on the breast as long as it is possible and advisable and discouraging early weaning except when necessary. It means feeding nursing mothers, giving them good milk and helping them to make and keep themselves fit for their task of life making. Pregnant women will be helped to the best possible conditions for themselves and the life they carry.

The First Principles. It will be the simplest of charities—this helping mothers with their young—but this life saving service will help El Paso's citizenship as nothing else can, beginning as it does with the beginning. Diseases that blight the town, conditions that blind and cripple and dull humanity, uncleanness, squalor, physical poverty, the horrible wages of sin will all be fought where there is but chance for victory. The good done in helping one baby to a sound body and a clean start must necessarily be immeasurable.

Mode of Procedure. Well babies and sick babies both will go to the clinics. The well ones to keep in good condition, the sick to be cured. The babies will be weighed regularly; an El Paso man of more than two summers leads his big grocery scales to the service. For each baby a fresh, soft paper will be laid in the pan that there may be no infection. If the baby be thriving, the mother will be advised how to keep him so. The nurse will visit all the babies and teach the mothers how to keep the baby clean and sound and well. When a baby is sick the nurse sees that the doctor's orders are carried out, gives the baby any special services that may be necessary, explains to the mother how to watch the course of trouble, helps her to make the baby clean and comfortable and to prepare its foods and medicines. She visits the baby as often as necessary and when possible stays with it through the crisis and fights for its life moment by moment.

Grown-ups can give to the "Save the Babies" fund through The Herald, and it is hoped also to enlist the baby boys and girls and the lads and lassies in the cause.

## Beginning Monday, April 20th,

The Posener Millinery Stock, Hair Goods and Fancy Goods, Fixtures, etc., will GO ON SALE WITHOUT ANY RESERVE.

We have leased the five story building which will be erected at the corner of San Antonio street and Mesa avenue, and will be completed about August 15th. We are determined not to carry a dollars' worth of goods now in stock if

### Prices Will Move Them

The people of El Paso and vicinity know the Posener Millinery stock to be the acme of high grade millinery, where nothing but the most up-to-date stock is carried.

### OUR SERVICE TO INVESTORS

Realizing that many people have neither the time nor experience to properly investigate securities, the officers of this institution are pleased to confer with those people having idle money that they wish to invest. This bank always has on hand investments that combine satisfactory returns with unquestioned safety.

## SANATORIUM SITE IS DONATED BY RAILROAD COMPANY AT CLOUDCROFT

Sewers Are to Be Put in for the Summer Resort and Everything Done to Make It Comfortable.

The baby sanatorium at Cloudcroft is assured, representatives of the Phelps Dodge interests having expressed a desire to donate the site for the institution, and E. Krause, the architect, having offered to draw the plans and specifications free of charge. The announcement that the financial end of the deal has practically been closed, except a few minor details, is also made. It is thought the sanatorium will be ready to care for children by June 1.

The announcement of the near beginning of work on the institution, which will annually save the lives of many El Paso babies, was made by H. B. Stevens, following a conference Friday afternoon attended by Mr. Stevens and F. B. Simmons, representing the Cloudcroft property owners, and H. J. Simmons, John Franklin, and W. A. Hawkins, representing the Southwestern railway. At the meeting, the Southwestern officials announced the Phelps-Dodge interests desire to donate the site for the sanatorium.

To Install Sewers.

It was also announced at the meeting

that the Southwestern will at once install the main sewers of a sewerage system in Cloudcroft, and that all property owners will be required to install laterals and connect their property with it. Property owners must, after the installation of the main sewer, care for half the cost of maintenance.

Following the meeting of the Cloudcroft directors, the directors of the baby sanatorium held a meeting, and will hold another early in the week.

Complete Building by June 1. Plans for the beginning of work were discussed, and it is intended to have the building completed by June 1 at the latest. It will be constructed of native lumber and will be of a rustic design. Sanitary rules and regulations will be followed throughout.

The members of the baby sanatorium committee, who are Rev. Henry Easter, Dr. H. E. Stevenson, F. B. Simmons and H. B. Stevens, expect to announce at an early date the financial plans for the construction of the building. The greater part of the funds, however, have been pledged, it is stated.

Train Service. Train service to Cloudcroft this summer will be ideal, according to the present plan. Trains will leave El Paso daily at 8 a. m., and arrive at Cloudcroft at 1 p. m. The returning train will leave at 6 p. m., and arrive in El Paso about 10:20 p. m.

### IRRIGATION DELEGATES TO INDUSTRIAL CONGRESS

Peas, Tex., April 15.—President Swineheart, of the Texas Irrigation congress, has appointed the following as delegates to the Texas Industrial congress, to convene at San Antonio on April 19: Joseph Tegedy, Knickerbocker, Texas; Albia Heywood, San Bonite, H. N. Magill, Brownsville, E. P. Turner, Dallas, and John W. Gains, Bay City.

### TWO MEN RELEASED ON MURDER CHARGE.

Principal Witness Confesses to the Crime and Two Men Held at Solomonsville Get Their Liberty.

Solomonsville, Ariz., April 15.—The murder trial of Clark and Sturten came to an abrupt end when Wadill, the other principal in the case and the only witness against Clark and Sturten, confessed to the murder himself, stating that the other men had nothing to do with it. The case against the other two was dismissed and the prisoners liberated.

The case of Nardilli, charged with the murder of the Chinaman, resulted in the acquittal of Nardilli for lack of evidence.

### HERE FOR CONFERENCE

Walter Douglas, of Bisbee, Ariz., and C. E. Mills, of Morenci, Ariz., manager of the Detroit Copper company, arrived in El Paso Saturday morning to attend a conference with H. J. Simmons, general manager and A. N. Brown, general traffic manager of the Southwestern.
